WORK AND PROJECT EXPERIENCE

SECOND GLASS / BOSTON, MA AND SAN FRANCISCO, CA

JUNE 2010-DEC 2011

VICE PRESIDENT OF TECHNOLOGY, PRODUCT MANAGER, DEVELOPER

- Lead a 2-3 person engineering team through the entire design process from product conception to mockups in Balsamiq to detailed technical design to completed application
- Architected web and mobile infrastructure in Python/Django/PostgreSQL on the web side and Appcelerator Titanium for iOS and Java/Android SDK on mobile, creating a site with over 8,000 users and 45,000+ wine reviews
- Designed and wrote a custom event ticketing and HTML5/JQuery check-in system, used to sell and process over \$250k worth of tickets in 2011
- Prepared real-time infographic displays and ran Front of House at 1,000+ person wine events around the country

QUICKWARE ENGINEERING AND DESIGN / WALTHAM, MA

JUNE 2007-JAN 2011

ELECTRICAL ENGINEER

- Designed, implemented, tested, and verified custom logic emulating PDP-11 computers and peripherals, including memory, display, and system bus controllers in VHDL, deployed on Virtex-5 FPGAs in a nuclear power facility
- Created an assembly language for a control panel, an assembly interpreter in Adobe Flash for rapid iteration (yes, really!), then built a hardware device to run that language
- Wrote system and component level documentation; created Python scripts to automate documentation tasks
- Presented and defended design decisions to clients and responded to client feedback

PROJECT BEST IDEA EVER / BOSTON, MA

JULY 2005-JULY 2010

FOUNDER/EVENT COORDINATOR

- Conceptualized, marketed, planned, and executed a series of audacious, ambitious and wacky July 4th rafting trips on the Charles River to see the Boston fireworks, including providing equipment and freshly-prepared food
- Grew the project organically and without funding from a group of 10 in 2005 to 230 people in attendance including 15 staff in July 2010

FRANKLIN W. OLIN COLLEGE OF ENGINEERING / NEEDHAM, MA

MAY 2008

TEACHING ASSISTANT, PRINCIPLES OF ENGINEERING

- Helped students through the design process of mechatronic systems, including circuit design, embedded C development on PIC microcontrollers, debugging of electronic systems, and presentation of concepts and work

VICE PRESIDENT OF CAMPUS LIFE, COUNCIL OF OLIN REPRESENTATIVES (2007-2008)

- Organized budgeting and communication for 58 campus clubs; revamped the budgeting system to be fairer and more consensus-based

ADMISSIONS OFFICE DESIGN BUILD COORDINATOR (2007)

- Lead and managed a team of 22 people in brainstorming, prototyping, and executing an admissions design activity for 180 Olin candidates
